

DAFT PUNK

ANTHOLOGY

Description: Website, Digital encyclopedia
Address: <http://www.daftpunk-anthology.com>
Concept: Sum up 20 years of career

daft punk ANTHOLOGY ALL ABOUT THE ROBOTS

Ludovic Carminati (*Webmaster/Professional Designer*), founder of '[French Touch Forum](#)' (robots have invited me for 'After shows' and parties thanks to this site), a discussion website, supported by **famous artists** (*John Lord Fonda, Mr. Oizo, Breakbot, Madeon, Zdar...*) and containing numerous **exclusive interviews** (Daft Punk, Kavinsky, Justice, Cassius, Phoenix, Alan Braxe, Vitalic, C2C, Para One ...).

Also creator of '[French Touch Info](#)' webzine, partner with Labels (*Police Records, Citizen Records, Roy Music, Psychent Music, A-Traction Records, So French Rec,...*) being a source of information for French renown magazines such as **Tsugi, Télérama** and other. Recommended by websites such as '[Konbini](#)', '[Electro News](#)' & '[Electro Italia](#)'..., our Live shows videos have been shared by organizations like '[I Love Techno](#)' and diffused by musicians like '[Gesaffelstein](#)'.

I'm coming towards you as the founder of '[Daft Punk Anthology](#)', a brand new project linked to **Daft Punk** on the web. My team and I started this website since more than 7 months ago by applying an enormous **amount of research, design and ergonomics**. With **clear and simple** layout, a posh web design in adequacy with the group's musical and visual universe. It's focusing to be a reference for the Daftweb. **Universal** because in English, but with a French version for the group's origin and the Creators (*we're all French*).

The objective is to make the **new generation** discover the group, but also to inform the **hardcore fans and artists** following their news. With a **comfortable visual** studied ergonomically, a browser and a sub-section have been established to make **easy researches**. The text is **authentic** and our editors are working on numerous descriptions, biographies and articles of this encyclopedic-website. I was invited for interviews of two radios to promote '[Random Access Memories](#)'. **RFI**, a renowned international radio (*article*) and **Couleur 3** with DJ Falcon, a big Switzerland radio (*article*).

Also note that we are working with artists to establish some special **Daft Punk Mixtapes, Roulé vs Crydamoure, Discovery vs HAA, Random Access Memories** via some **customized players**. We also did a **REMIX Contest** for the last album and soon a **DESIGN contest** (around DP logo and Helmets).

Website online since
April 19, 2013 ('*Get Lucky*' release)

daft punk ANTHOLOGY ALL ABOUT THE ROBOTS
